CARE AND USE: - CABINETRY

WOOD MODE/BROOKHAVEN CABINETRY

CAUTION!!!

DO NOT use any type of abrasive cleansers or pads on cabinet surfaces! They can cause scratches. Scratches may be irreparable.

Use of 409 cleaner: NO
Shelf paper needed: NO
Waxes – ever: NO

STAINED FINISHES:

1. If the finish gets badly soiled or smudged, use a soft cloth dampened in a mild soapy water solution to remove the dirt. Wipe immediately with a clean damp cloth and dry with a clean soft cloth, using light pressure. AVOID vigorous rubbing, as that tends to raise glossy spots, marring the original effect.
2. NEVER use strong soaps, detergents, or liquid wax cleaners with dirt-cutting agents on wood finishes.
3. On wood finishes, use a quality wood care product. Wood Mode recommends S.E. Johnson's Guardsman.

OPAQUE FINISHES:

1. NEVER use any type of wax on an opaque finish!!!
2. Simply wipe them clean using a soft cloth with a mild soapy water solution. Wipe immediately with a clean, damp cloth and dry with a soft cloth.
